

CALL FOR PAPERS

ICAC 2017
Jan 13-14, 2017
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICAC 2017 : 19th International Conference on Applied Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical, Environmental,
Environmental engineering
Process design and
Product innovation,
Process intensification
Nanotechnology
New materials and
Intelligent polymers
Green organic synthesis
Process integration
Environmental engineering
Sustainable and clean
SCF as solvent
Chemistry and Chemical
Chemical engineering
Physical, Theoretical and
Chemical engineering
Chemical reaction
Chemical engineering
Thermodynamics
Catalysis and reaction
Particulate systems
Rheology
Multifase flows

Interfacial and colloidal
Transport phenomena in
Membranes and membrane
Crystallization
Distillation, absorption
Ionic liquids/electrolyte
Multi-scale and/or
Process system,
Product engineering and
Product design and
Nanomanufacturing
Controlled release of the
Energy and nuclear
Energy and environment
CFD and chemical
Food engineering
Nanomaterials
Particle technology
Mathematical modeling in
Macromolecular Science
Advanced materials
Systematic Methods and
Multiscale modeling
