

CALL FOR PAPERS

ICMEP 2017
May 04-05, 2017
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEP 2017 : 19th International Conference on Manufacturing, Engineering and Productivity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing, Engineering and Productivity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing
Manufacturing practices
Research, design and
Processes, machines,
Distribution and storage
Design and manufacturing
Modern developments
Modern tools
Mechanics
Automation
Robotics
Statics and dynamics
Flexible manufacturing
Computer integrated

Friction stir welding
Producing quality
Putting-out system
English system of
American system of
Soviet collectivism in
Mass production
Computer-aided
Just in time
Lean manufacturing
Flexible manufacturing
Mass customization
Agile manufacturing
Rapid manufacturing
