

CALL FOR PAPERS

ICSEKE 2017
Nov 02-03, 2017
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICSEKE 2017 : 19th International Conference on Software Engineering and Knowledge Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agent architectures,
Multi-agent systems
Agent-based learning and
Interface agents
Agent-based auctions and
Artificial life and
Secure mobile and
Mobile agents
Mobile Commerce
Mobile Systems
Autonomic computing
Adaptive Systems
Integrity, Security, and
Reliability
Enterprise Software,
Process and Workflow
E-Commerce Solutions and
Industry System
Service-centric software
Service oriented
Service oriented
Middleware for service
Service discovery and
Quality of services
Service level agreements

Runtime service
Semantic web
Requirements Engineering
Agent-based software
Artificial Intelligence
Component-Based Software
Automated Software
Automated Software Design
Computer-Supported
Embedded and Ubiquitous
Measurement and Empirical
Reverse Engineering
Programming Languages and
Patterns and Frameworks
Reflection and Metadata
Program Understanding
Knowledge Acquisition
Knowledge-Based and
Knowledge Representation
Knowledge Engineering
Time and Knowledge
Knowledge Visualization
Data visualization
Uncertainty Knowledge
Ontologies and
