

# CALL FOR PAPERS

**ICCEBM 2018**  
**Jan 25-26, 2018**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEBM 2018 : 20th International Conference on Civil Engineering and Building Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Engineering and Building Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural engineering  
Road & Bridge  
Geotechnical engineering  
Architecture & Urban  
Transportation  
Hydraulic engineering  
Coastal Engineering

Engineering Management  
Computational Mechanics  
Construction technology  
Building materials  
Environmental  
Computer simulation and
