

CALL FOR PAPERS

ICDCN 2018
May 17-18, 2018
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICDCN 2018 : 20th International Conference on Distributed Computing and Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Distributed Computing
Distributed algorithms :
Concurrent data
Concurrent,
Distributed operating
Embedded distributed
Experiments and
Fault-tolerance,
Multiprocessor &
Self-organization,
High performance
Security, cryptography, &
Distributed computing
Networking Track
Ad hoc, sensor and mesh

BANs, PANs and home
Cellular networks
Vehicular area networks
Integration of
Network virtualization
Data center and cloud
Software defined and
Future Internet design
Next generation &
Overlay & peer-to-peer
Internetworking protocols
Network security &
Energy-efficient
Networking for the smart
