

CALL FOR PAPERS

ICLR 2018
Jun 14-15, 2018
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICLR 2018 : 20th International Conference on Learning Robots is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Robot learning
Developmental robotics
Memory and cognition
Cognitive systems for
Artificial life
Intelligent machines
Autonomous robots
Intelligent computer
Neurocybernetics

Neuroevolution
Neuroevolution and Neural
Neuroevolution and
Neural science and
Genetic algorithms
Evolutionary robotics
Computational
Evolutionary computation
Artificial neural
