

CALL FOR PAPERS

ICFE 2018
Sep 10-11, 2018
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICFE 2018 : 20th International Conference on Food Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural
Animal biotechnology
Application of artificial
Artificial organs and
Biocatalysis,
Bioinformatics
Biological and biomedical
Biomedical Computational
Bio-MEMS and
Biomimetic and
Bioremediation of
Biosensors and molecular
Cell and tissue
Control and system
Drug screening and
Electronics and
Environmental
Enzyme Engineering
Food Biotechnology
Food microstructure
Food properties including

Gene expression
Gene regulation
Heat, mass transfer and
Industrial Biotechnology
Marine Biotechnology
Mathematical modeling and
Medical and biological
Medical Biotechnology
Microbiology
Microorganism technology
Nano Biotechnology
Nanoparticle
Nanoparticles,
Non-thermal food
Pharmaceutical
Plant biotechnology
Plant design using
Protein and gene delivery
RNA and DNA structure and
Separation and
Thermal processing
