

CALL FOR PAPERS

ICRP 2018
Oct 29-30, 2018
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICRP 2018 : 20th International Conference on Robot Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Robotics programming
Evolution of robotics
Applications of robotics
Robotics programming,
Robotics programming and
Advanced programming
Robot programming
Industrial robot
Robot programming
Visual programming

Scripting languages
Parallel languages
Robotics software
Robot software
Feedback loops
Control
Path finding
Data filtering
Locating
