

# CALL FOR PAPERS

ICC 2018 Oct 29-30, 2018, Paris, France

The ICC 2018 : 20th International Conference on Resource Conservation and Restoration Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Glycoscience, drug discovery and biotechnology	Glycoconjugates
Glycobiology and Carbohydrate Technology	Glycosyl transferases
Carbohydrate Science and Molecular Glycoscience	Glycosidases
Carbohydrate chemistry	Plant and animal polysaccharides
Synthesis	Glycoconjugate vaccines and drugs
Glycosyl mimetics	Analytical tools and array technologies
Structures	Industrial polysaccharides/Biofuels
Functions	The molecular and supramolecular chemistry of carbohydrates
Glycobiology	Molecular aspects of carbohydrate chemistry, biochemistry, chemical biology and glycobiology

**Background:** International Research Conference Series is an event that brings together significant number of recurring events; academic conferences, symposia, workshops, special sessions, and plenary talks in all research fields since inception in 1999. Each event may run over any span of time within the conference days. Presentations scheduled in the Oral and ePoster sessions are drawn from a selection of the peer reviewed papers from a wide range of scientific and other disciplines of inquiry.
