

CALL FOR PAPERS

ICBRSA 2019
Apr 24-25, 2019
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBRSA 2019 : International Conference on Barcode Recognition System and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Barcode Recognition System and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Barcode systems
- Hardware and software
- Barcode software
- Electronic inventory systems and barcode technology
- Barcode recognition system
- Important barcode parameters
- Image parameters
- Image types

- Image formats
- Compression modes
- Character encoding
- Barcode embedding methods, barcode communication methods and barcode systems
- Applications of barcode technology
- Applications of barcode technology in automated storage and retrieval systems
- Barcode types and use
