

# CALL FOR PAPERS

**ICECCI 2019**  
**Apr 29-30, 2019**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECCI 2019 : International Conference on Effects of Climate Change on Infrastructures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Effects of Climate Change on Infrastructures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate change effects on infrastructure

Climate change effects and risks

Infrastructure networks and systems

Uncertainties and variabilities

Estimation of impact costs

Vulnerability, resilience and risk analysis

Climate change mitigation

Adaptation activities on infrastructures

Individual infrastructure assets
