

CALL FOR PAPERS

ICDCE 2019
Jun 11-12, 2019
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDCE 2019 : International Conference on Distributed Computing Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Distributed Computing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Distributed Computing Engineering
Algorithms and Theory
Data Management and Data Centers
Distributed Cyber-Physical Systems
Distributed Operating Systems and
Middleware

Fault Tolerance and Dependability
Network/Internet Protocols and
Applications
Privacy and Security
Sensor Networks and Ubiquitous
Computing
Wireless and Mobile Computing
