

# CALL FOR PAPERS

**ICGEG 2019**  
**Jun 27-28, 2019**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEG 2019 : 21th International Conference on Geosciences and Environmental Geology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geosciences and Environmental Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exploration geology  
Geographic information  
Management of  
Rock mechanics applied to  
Deep seismic soundings  
Earthquake and structural  
Structural geology and  
Dynamic tectonics and  
Sedimentology and costal  
Exploration, development  
Mining and mineral

geology and mineral  
Mineral processing, waste  
Geological map of the  
Mapping and regional  
Geochemical exploration  
Geosphere-biosphere  
Petroleum and  
Igneous and metamorphic  
Mineralogy, petrology and  
Geochronology including  
Industrial processes and
