

# CALL FOR PAPERS

**ICEES 2019**  
**Jun 06-07, 2019**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEES 2019 : International Conference on Earthquake Engineering and Seismology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Earthquake Engineering and Seismology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analysis and design of  
Seismicity of the Urban  
Earthquake Source  
Earthquake Forecasting  
Engineering Seismology  
Acquisition and Analysis  
Microzonation and Site  
Geotechnical Earthquake

Earthquake scenarios and  
Earthquake codes  
Performance based seismic  
Transportation and  
Seismic response of  
Seismic isolation  
Earthquake risk  
Lessons from recent
