

CALL FOR PAPERS

ICBASMP 2019
Nov 07-08, 2019
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBASMP 2019 : International Conference on Biomedical Applications of Shape Memory Polymers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Applications of Shape Memory Polymers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Shape memory polymers for biomedical applications
Mechanical properties of shape-memory polymers for biomedical applications
Mechanical properties of shape-memory polymers
Mechanical properties of SMP biomedical devices
Characterization of shape-memory polymers for biomedical applications
Mechanical testing of shape-memory polymers for biomedical applications
Biocompatibility of shape-memory polymers for biomedical applications
Technologies and materials for biomedical shape-memory polymers
Chemo-responsive shape-memory polymers for biomedical applications

Shape-memory polyurethane cellular solids for minimally invasive surgical procedures
Thiol-ene/acrylate systems for biomedical shape-memory polymers
Polyurethane shape-memory polymers for biomedical applications
Polylactic acid-based shape-memory materials for biomedical applications
Biodegradable shape-memory polymers for biomedical applications
Biomedical applications of shape-memory polymers
Shape-memory polymers for vascular and coronary devices
Shape-memory polymers for dental applications
Shape-memory and self-reinforcing polymers as sutures
