

CALL FOR PAPERS

ICVAUD 2019
Dec 12-13, 2019
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVAUD 2019 : International Conference on Vertical Architecture and Urban Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vertical Architecture and Urban Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vertical architecture
Advances in vertical architecture
Advanced structural technologies for high-rise buildings
Featured design researches
Sustainable vertical urbanism
Building services and achieving sustainable vertical urbanization
Supertall building design

Seismic action reduction in high-rise structure
Designing high-rise housing
Thermal breaks and energy performance in high-rise structures
Using fluid dynamics to optimize high-rise structure design
New skins for skyscrapers
Aerodynamic performance of tall buildings
Development of innovative structures
