

CALL FOR PAPERS

ICRGA 2020
Jan 13-14, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRGA 2020 : International Conference on Riemannian Geometry and its Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Riemannian Geometry and its Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Riemannian Geometry
Sectional Curvature Comparison
Symmetric Spaces and Holonomy
Ricci Curvature Comparison
Differentiable Manifolds
The Tangent Space

The Tangent Bundle
Riemannian Manifolds
The Levi-Civita Connection
Geodesics and Distance
The Riemann Curvature Tensor
Curvature and Local Geometry
