

CALL FOR PAPERS

ICCCBE 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCBE 2020 : International Conference on Computing in Civil and Building Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computing in Civil and Building Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computing in civil engineering
Computer science
Information science
Computer engineering
Knowledge engineering
Innovations in artificial intelligence
Parallel processing
Distributed computing
Graphics and imaging
Information technology
New programming languages

Database-management systems
Computer-aided design systems
Expert systems
Hardware for robotics
Bar coding
Remote sensing
Data mining
Knowledge acquisition
Management of computing resources
Implementation strategies
Organizational impacts
