

CALL FOR PAPERS

ICVUHSABT 2020
Aug 06-07, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICVUHSABT 2020 : 22th International Conference on Vertical Urbanization, High-Rise Structures and Advanced Building Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture history,
New building technologies
Featured design
Sustainable vertical
Building services and
Supertall building
Seismic action reduction
Designing high-rise
Thermal breaks and energy

Using fluid dynamics to
New skins for
Aerodynamic performance
Development of innovative
Materials and
Energy and
Construction management,
Refurbishment and
