

CALL FOR PAPERS

ICICSE 2021
Jul 29-30, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICICSE 2021 : 23th International Conference on Intelligent Control Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial and Systems
Decision Analysis and
E-Business and
Engineering Economy and
Engineering Education and
Facilities Planning and
Global Manufacturing and
Human Factors
Information Processing
Intelligent Systems
Manufacturing Systems
Operations Research
Production Planning and
Project Management
Quality Control and
Reliability and
Safety, Security and Risk
Service Innovation and
Supply Chain Management
Systems Modeling and
Technology and Knowledge
Industrial Informatics
Robotics
industrial vision

motion control
autonomous mobile robots
electrical vehicles
intelligent
factory communications
flexible manufacturing
industrial automation
process automation
CAD/CAM/CAT/CIM and LANs
industrial application of
Computer and Control
Advanced control and
computer and
signal processing
estimation and
application specific IC's
automotive electronics
non-linear control
industrial applications
Power Electronics and
Power Electronics devices
high frequency power
digital control of power
