

CALL FOR PAPERS

ICSAE 2021
Oct 06-07, 2021
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICSAE 2021 : 23th International Conference on Structural and Acoustical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural and acoustical
Architecture, structures
Architecture and
Architecture, urban
Building envelopes and
Comprehension of complex
Computer and experimental
Concept architectural
Concrete and masonry
Emerging technologies
Glass structures

Innovative architectural
Landscape architecture
Lightweight and membrane
Special structures
Steel and composite
Structural design
Tall buildings
The tectonic of
The use of new materials
Timber structures
Urban and regional
