

# CALL FOR PAPERS

**ICCAGRF 2023**  
**Jun 07-08, 2023**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICCAGRF 2023 : 25th International Conference on Combinatorial Algebraic Geometry and Regular Functions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences  
Geometric analysis  
Geometry  
Geometry and dynamics  
Algebraic geometry  
Basic notions  
Zeros of simultaneous  
Affine varieties  
Regular functions  
Morphism of affine  
Rational function and

Projective variety  
Real algebraic geometry  
Computational algebraic  
Gröbner basis  
Cylindrical algebraic  
Asymptotic complexity vs.  
Abstract modern  
Analytic geometry  
Applications  
Computational geometry
