

CALL FOR PAPERS

ICSCE 2023
Sep 25-26, 2023
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICSCE 2023 : 25th International Conference on Stem Cell Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stem Cell Engineering
Bioenergy
Biomaterials
Biomedical Engineering
Bionanotechnology
Bioprocessing and
Biosensors / Devices
Computational Stem Cell
Extracellular Programming
Food

Imaging
Industrial Biotechnology
Intracellular Programming
Metabolic Engineering
Microtechnologies & High
Molecular, Cellular, &
Pharmaceutical
Regenerative Therapies
Stem Cell Tissue
Synthetic Biology
